

## **Willowbank School**

### **IMPORTANT NOTICE 4.2.2011**

On Wednesday afternoon a Willowbank School child was approached by a woman in a vehicle on Gracechurch Drive. The woman asked the child to get in to the car. Fortunately the child realised the seriousness of the situation and ran back to school. This is a timely reminder that we need to talk with our children about 'stranger danger' and what they should do if they feel unsafe. It is important that children know who is picking them up or where they are to walk to after school. Remind children that if these arrangements were to change you would ring the school and their teacher would tell them of any changes. Our Walking School buses provide security for children who would normally walk home alone. The police are following up on this incident.

Thank you,

Deidre Alderson

Principal
