Learning our Multiplication Basic Facts

There are only 36 basic multiplication facts to be learnt.
You will note below that the following times tables are left out for the reasons below.
0 times is left out because 0 time any number is 0.
1 times is left out because 1 times any number is the number.
10 times is left out because 'ty' is added to the digit word to indicate the tens.
11 times is left out because it was only needed to fill the gap between 10 and 12
12 times is left out because we now work on a decimal system and this knowledge is no longer paramount.

It is important that you know the basic fact reversal for each of the following basic facts. eg: 7x2=14 and 2x7=14

x	2	3	4	5	6	7	8	9
2	4	6	8	10	12	14	16	18
3		9	12	15	18	21	24	27
4			16	20	24	28	32	36
5				25	30	35	40	45
6					36	42	48	54
7						49	56	63
8							64	72
9								81
