

Willowbank School – Special Notice
Student Injured on Gracechurch Drive

On Wednesday 3rd of June one of our Year 4 boys was hit by a car whilst trying to cross Gracechurch Drive. Fortunately his injuries were not too severe and he is recovering at home.

On behalf of the family and school we would like to thank those parents who offered immediate support to our student and contacted the school office quickly.

It is very important that our children know and understand that the child hurt is ok and recovering from his injuries.

As a school we take road safety seriously. We met with all children today to reassure them that their fellow student is recovering and to discuss road safety. All classes have practiced road sense strategies today and we have talked about the importance of joining the Walking School Bus if walking home without an adult.

Please support us by continuing to talk with your children about road safety.

Thank you,

Deidre Alderson
Principal
